Intent

Acquire and operate one strong service business for the long term.

UG**Uckele Group**

Long-term small business buyer

BUYER RESUME AND ACQUISITION FIT

A practical operator looking for one great small business

I am seeking to acquire and operate an established service business for the long term. My focus is continuity, disciplined execution, and preserving the strengths that made the company worth buying.

Operating Background

- Co-founder and President of Golden Behavior Connection, an ABA healthcare services practice.
- Direct operating exposure across staffing, compliance, revenue cycle management, sales execution, financial performance, and day-to-day service delivery.
- Prior senior operating and commercial roles at Tripadvisor, Better Mortgage, and Wayfair.
- Experience scaling teams, improving processes, training operators, implementing systems, and driving growth initiatives.

How I Think About Ownership

- Hands-on, long-term operator mindset rather than a financial-engineering or roll-up approach.
- Respect for employees, customers, reputation, and the operating details that keep a business healthy.
- Preference for steady, practical improvements: better systems, sales, hiring, add-on services, and geographic expansion where appropriate.

Acquisition Fit

Target size	Revenue around \$1M to \$5M; SDE / EBITDA of \$250K to \$750K+, with flexibility up to roughly \$2M for an exceptional fit.
Business type	Stable, profitable service businesses with understandable operations and repeat customer relationships.
Areas of interest	Professional services, healthcare services, tech-enabled operations, home services, environmental or waste services, pet care, and veterinary-related services.
Geography	Southern California preferred. Open nationwide for a strong business with the right fundamentals and transition plan.

A strong first conversation is usually about fit: the business, the owner's goals, the team, the customer base, and whether I can be a responsible next owner.
